

I am OPPOSED to the installation of tolls at the borders of CT!

Living in Danbury, on the stateline, this would impose a hardship on my family, as well as countless families in the area.

It would be detrimental to the businesses in the area.

The traffic backup would be a NIGHTMARE when it is already a known fact that it gets backed up throughout the day; traffic would then look for shortcuts or ways to avoid the tolls, creating dangerous traffic through neighborhoods – and congestion!

Please be sensible. Yes, the income would help CT, but at far too great a cost to the families and businesses here. We can just barely afford to live here anymore as it is. Our kids have all left the state to go to school outside of CT because they do not want to live and work in CT. Everyone can see this, yet nothing seems to be done to keep businesses and families in CT.

“NO” to tolls in CT.

Sincerely,
Marjorie Cutler
